

The Credits 2015

SDMS wish to thank:-

The many people and organisations that enable the Society to perform to its high standard. Although we are but an amateur company, the credits grow as if we were a film company! Helpers come and go but hopefully they have had a mention in our show programmes over the years. Professional services may be used to maintain the standard of our performances but our shows are put together mainly by many unpaid volunteers. Each provides a cog no matter how small in making the stage come alive when the curtain goes up!

In particular
